

SUPER SHINE
PREMIUM WOOD FINISH

DEALER'S PRICE LIST

With effect from
15th JULY 2026
(Inclusive of GST)

About Us:

Super Shine Paint is committed to delivering reliable, innovative, and sustainable paint and coating solutions. Our manufacturing facility in Delhi, is supported by modern infrastructure, industry-standard equipment, and advanced research and development facilities.

By combining technology, innovation, and technical expertise, we continuously develop high-performance products that meet evolving market requirements. Our focus remains on consistent quality, durability, product improvement, and customer satisfaction.

The growth of Super Shine Paint is driven by the trust of our valued customers and the dedication of every member of our organisation. We remain committed to setting new benchmarks in the paint and coatings industry through dependable products and exceptional service.

Vision:

Our vision is to bring more advance, innovative technology and sustainable paints and coatings that take care of everything from wood to metal, glass to plastic.

PU

POLYURETHANE COATING SYSTEM

PERFECT FINISH. STRONGER PROTECTION.

FEATURES & BENEFITS

WHAT IS PU?

PU (Polyurethane) is a high performance coating system widely used for its outstanding finish, durability, hardness and chemical resistance. It forms a tough, protective film that enhances the beauty and life of the surface.

PU coatings are ideal for wood, metal, MDF, particle board and many other substrates, providing a smooth, rich and long lasting finish.

Our PU system is a complete solution designed for professional results – from sanding sealer to top coat.

HIGH DURABILITY

Provides tough & long lasting protection.

EXCELLENT FINISH

Delivers rich, smooth, glossy and premium quality finish.

CHEMICAL & WATER RESISTANT

Resists water, chemicals, spills and stains.

SCRATCH & ABRASION RESISTANT

High resistance to scratches, wear & daily handling.

UV RESISTANT

Does not yellow or fade, stays new for years.

EASY APPLICATION

Smooth flow, excellent leveling and easy to apply.

OUR PU COATING SYSTEM – COMPLETE 4 STEP PROCESS

1 SANDING SEALER

Seals the surface pores and provides a smooth base.

2 PUTTY (IF REQUIRED)

Fills the minor irregularities and gives a perfect surface.

3 SURFACER / SEALER

Builds the body, enhances smoothness and improves finish.

4 TOP COAT (PU TOPCOAT)

Gives final rich gloss, protection and beautiful finish.

AREAS OF APPLICATION

- Modular Kitchen & Furniture
- Office & Home Interiors
- Doors & Window
- Wooden Furniture
- MDF & Particle Board
- Metal Surfaces
- Decorative Items
- Automotive Parts
- And Many More...
